"STUNG" BY MAIL-ORDER

Keene Man Called to Chicago As Witness in U. S. Court.

Declines to Say How Much Money He Lost in the Fake.

E. C. Layman, a well known farmer residing just the other side of Keene, has been ordered to appear before the U. S. grand jury at Chicago, Dec. 13, as a witness against an alleged fraudulent mail order house.

The subpoenae was served on him at his home Saturday morning by U. S. Marshal McAllister, of Marietta, who was sent here by the U. S. government.

To the marshal Mr Layman declined to make any statement other than he had sent a considerable sum of money to the mail order house in response to one of their advertisements and the whole thing had been a fake. Other than that no information could be gleaned.

Marshal McAllister, who was also here on the Johnston case, states that a large number of fraud mail order houses are being unearthed and in most instances their fraud is so bald that it is a wonder they get any victims, but they do get thousands.

Mr. McAllister is a former resident of Coshocton having dwelt here about 22 years ago. His old friends remember him best as John McAllister. His wife at that time taught German in the Coshocton schools. He is at present located at Marietta and is U. S. Marshal for southern Ohio.

L McDowell, asked to be bound over. His father, Jos. Pash, went on the bond for $200 W S Merrell represents the plaintiff, who appeared at the squire's office Saturday afternoon and stated that he wished to file another affidavit against Pash, charging him with failing to pay an $8.50 board bill at the Mecca hotel.

Debcte on Between the Bitter Foes

[Associated Dailies Telegram]

Columbus, O., Dec. 10.—Edward W. Hanley of Dayton and Atlee Pomerene of Canton, rival candidates for United States senator, are going to debate before the people of Ohio the question of which is best fitted and most deserving to wear the toga.

Time and places for the different meetings have not yet been arranged, but both men announced a willingness and a desire to meet in a series of joint debates so that the people can form their own opinions.

Hanley, in a signed statement, declares that he is ready to start the debates at once, and to this Pomerene replied that he likewise didn't need any time for preparation.

According to present plans Pomerene will deliver a few speeches before Hanley will be permitted to speak from the same platform. But Hanley may attend the meetings and all questions he puts to the speaker will be answered. A tentative itinerary, including addresses at mass meetings in Mansfield, Wednesday; New Philadelphia, Thursday; Kent, Friday, and Ada, Saturday, was announced at the Pomerene headquarters.

The Columbus Citizen says today: Former Congressman John J Lentz of Columbus announced Saturday morning that he would take an active part in the campaign for United States senator from this on He said he would have been in it earlier but for a court case which occupied most of his time and thought. He will decide Monday whether or not he will take the stump.

"There seems to be considerable doubt in the minds of the people as to whether Mr. Pomerene or Mr. Hanley is suitable fo. senator," said Lentz Saturday. "I believe there is no doubt regarding my suitability. I shall participate actively in the campaign from now until the election"

Atlee Pomerene said Saturday that no arrangement would be made for a debate with Edward W. Hanley, his rival in the senatorial contest, until Monday, when a conference with Congressman-elect Whitacre and other Pomerene leaders will be held at the Neil house

"It seems likely now that Pomerene will consent to but one debate with Hanley, that one to be held in Memorial hall, Columbus Pomerene does not propose to abandon his original idea of making speeches in different parts of the state in which he will not be governed by any rules or agreements with any of his opponents

If the debate with Hanley is held early in the following week, Pomerene will very likely finish out that week with more of his own meetings.

NEW ELECTRICAL POWER SYSTEM AT H. D. BEACH PLANT

A new electrical power system is being installed at the H. D. Beach plant by the Ft. Wayne Electrical Co. Individual motors will be used hereafter to furnish the power for all the machinery, doing away with the system which has been in use whereby the machinery has been run by means of an endless rope.

A new dynamo has been purchased and a force of men are at work putting in the new motors, the direct power eliminating the use of all belting. It is thought that the new system will be in use in about a month or six weeks. It will give the plant a much better power system and is in line with the H D. Beach company's progress in the manufacturing world.

CHARLTON TO GO TO ITALY

Wife Slayer Must Stand Trial For His Awful Deed.

[Associated Dailies Telegram]

Washington, Dec. 10.—Young Porter Charlton, who has confessed that he murdered his wife, Mary Scott Charlton, last June, thrusting her body into a trunk and sinking it in Lake Como, and who is now locked up in Hoboken, will be extradited to Italy for trial. The announcement that the United States will honor the requisition of the Italian government was made at the state department by Secretary Knox. It came as a decided surprise, the general impression having been that this government would decline to surrender Charlton because of the construction which the Italian government has placed on the extradition treaty between the two countries.

In the event of the state department having refused the requisition, Charlton, although a self-confessed murderer, would have walked out a free man, because the United States courts have no jurisdiction to try the case. Now the young man will be turned over to Italian authorities as soon as papers can be made out provided the extradition is not attacked in the United States courts on habeas corpus proceedings.

LINCOLN BUILDING MAY NOT OPEN AT APPOINTED TIME

There is some doubt whether the new Lincoln school building will be ready for opening Jan. 2 or 3 when the Christmas recess ends in the public schools of Coshocton It was announced a few weeks ago that the building would be completed by that time While the work is progressing rapidly and excellent time is being made it is not thought that everything will be in shape for occupancy until a week or two following the opening of schools for the second semester. An effort will be made however to have the building completed by that time

The painters are at work painting the interior of the building and the ventilating system is being installed.

War Dep't Says We Need New Airships

Washington, Dec. 10.—In his annual report, J. M. Dickinson, secretary of war, recommends that the government provide the army with both dirigible airships and with aeroplanes for instruction purposes and for field work. He says in part:

"Aerial navigation is attracting worldwide attention. Marked progress has been made in this art during the past year. Its possible influence upon the art of war is much discussed among military authorities the world over. Recently in Berlin and Paris opportunity was afforded me to witness aviation tests that were being made there by the military, and I was impressed with the interest and activity displayed in the development of this new art with special reference to its possibilities for use in the military service.

"Information from abroad indicates that at the present time Germany possesses 14 military dirigible airships and a number of aeroplanes and France seven military dirigible airships and thirty aeroplanes.

TRINWAY SITES INPECTED BY R. R. OFFICIALS

Rumors that the Pennsylvania railroad lines will make Trinway a railroad center by building large shops there and making it repair headquarters, will not down, and a mysterious trip taken by a number of the Pennsy officers this week to Trinway leads the residents of that town to have high hopes.

The party of the railroad officials arrived at Trinway on a special train of private cars on the Pennsylvania. This party was joined by a number of men who came later to Trinway on a train of private cars over the C. A. & C. road.

The members of both parties inspected the Pennsylvania's properties at Trinway, and also, strolled around Trinway, investigating its advantages for several hours

It was rumored but a short time ago that the Lancaster shops of the Pennsylvania would be removed to Trinway, and, though nothing definite has been learned about the truth of the report, the accuracy of the rumor has never been completely denied.

Rochester, N. Y., Dec. 10. — The police of Rochester today started a widespread search for a pretty 19-year-old girl, who says she is Gertrude Enright of Kingston, Canada, and who is said by the police to have dismembered the body of a baby, stuffing some of the parts in a drain pipe and burning others.

MOTORS RUN MACHINES AT ART WORKS

Individual electric motors are being installed by the American Art Works to furnish better and more direct power is a very important one in any manufactory and the individual motors with a private dynamo seem to afford a very adequate solution of the problem. The company is gradually equipping its plant with modern appliances in order that the big volume of business may continue to increase. The company is changing over to the new power as rapidly as possible.

Want Ad a Little Santa Claus.

When it comes to landing things, a little Age Want ad is a regular Santa Claus The other day Mrs. James Kinney lost a fur neck-piece, belonging to her little daughter. It was lost on the street, and of course an Age Want ad was utilized without delay. Yesterday the fur was returned to the happy owner at her home on Walnut street. Walter Darrick, a bright 11-year-old lad of Kenilworth avenue, found it, and of course sought The Age to see who had lost it.

CUBA NEEDS MORE SPANKS

Legislators Settle Row By Killing Each Other on Street.

[Associated Dailies Telegram]

Havana, Dec. 10.—Two members of the house of representatives, Severo Moleon and Sanchez Figueras, met near the government palace and exchanged 16 shots. Moleon fired first, and Figueras ran around a corner until he could draw his pistol. Then he returned and opened fire. After two bystanders had been hit Moleon fell, whereupon Figueras, who had been wounded in the stomach, approached him and put his revolver to Moleon's head and pulled the trigger. The weapon, however, was empty, and before it could be reloaded the police arrived on the scene and arrested Figueras. Moleon died a few hours later and Figueras, the doctors say, can not survive. The other two men who were hit were not mortally wounded.

Property Deal Starts Trouble.

The shooting was an outcome of the division among the Liberals over trading the arsenal property on the waterfront for property of the United Railways company, which has caused stormy scenes in the house, where pistols have been flourished and fists used. On one occasion Representative Lores shot at Senor San Miguel, who opposed the measure. These events occurred last spring, and Figueras, who opposed the measure, wrote articles for the newspapers which caused Moleon, who supported the exchange, to waylay and beat him. Figueras made his will, saying he intended to kill Moleon or be killed. It is expected that the friends of the two men will now make more trouble. Special police precautions will be taken at the funeral of Moleon

The arsenal deal is a scheme devised by President Gomez. Senor San Miguel has openly charged that the attempt made to kill him last August was a government conspiracy to get rid of him in order to make sure the passage of the bill providing for the exchange of the properties.

Sweeper Fake Said to Have Landed Here

It is reported to The Age that a number of Coshocton people are victims of the "R. Armstrong" vacuum cleaner, a mail order business at Cincinnati that was taken hold of by the postmaster general this week. The sweeper works with a piston and sells for $8.50. It is claimed that it does not do the work and that while money is guaranteed to be refunded if the machines are not satisfactory yet there has been much trouble in that regard. Some Coshocton witnesses may be called when the case gets in the U. C. court at Cincinnati

FAMOUS DRESDEN BANK CASES ARE PASSED IN COURT

Further strength in the belief often expressed here that the three men convicted of wrecking the First National bank of Dresden and then granted a new trial by the United States circuit court, would never be retried was given Thursday afternoon by the action of Judge Sater in the U. S. district court at Columbus who ordered the case continued until the next term of court.

Jacob Kapner, Abe Kapner and J. S. Prettyman are the men convicted of the wrecking of the bank and sentenced to terms in the federal prison at Ft. Leavenworth from five to seven years each. He visited Etherington in his cell and found him covered with blood, his nose was broken, one eye closed, and he was practically exhausted as the result of a beating by a mob. Moser witnessed the lynching and saw a man stab Etherintgon with a knife as he was being hurried to his death Two boys climbed the pole and adjusted the rope over the iron step. He saw a man knocked down for exclaiming "My God, don't hang that man," he said. NO BETTER WAY TO BREAK A BAD COLD AND CURE GRIPPE

The most severe cold will be broken, and all grippe misery ended after taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel all the disagreeable symptoms leaving after the very first dose.

The most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatism pains and other distres vanihes.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe

Take this harmless Compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

FREE TO YOU—MY SISTER

Free to You and Every Sister Sufferer From Woman's Ailments.

I am a woman.
I know woman's sufferings.
I have found the cure.
I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—you, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or Whitish discharges, Ulceration, Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths; also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex.
I want to send you a complete ten days' treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial; and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Sickness and Painful or Irregular Menstruation in Young Ladies. Plumpness and health always result from its use.
Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell any sufferer that this Recipe Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write today, as you may not see this offer again. Address

SATURDAY NIGHT SERMONS BY REV. SAMUEL W. PURVIS, D.D.

THOU SHALT NOT.

Text, "Whoso breaketh a hedge a serpent shall bite him."—Eccl. x, 8

"Thou shalt not!" Who said so? God. But why shan't I? There's a reason. You need not know it—possibly couldn't understand. When you tell your little three-year-old that coffee isn't good for children you don't bother explaining about caffeine, the active and dangerous alkaloid of coffee. You might as well read Kant's "Critique," Butler's "Analogy" or Browning's poems. Her nervous system will become just as strong by obeying your "thou shalt nots" as if you had tried to explain. It ought not to embarrass you to learn that you must believe first and be taught afterward. You knew your multiplication table long before you could prove it. Most of your knowledge came that way. The "thou shalt not" is a hedge. The purpose of a hedge is not to annoy, but to protect. Uncle Sam maintains 3,000 beacon lights, 6,000 buoys and signals along his coast. Each one says, "Thou shalt not!" No mariner is quite such a fool as to think Uncle Sam a bullying policeman with a big stick.

"Don't Go Out the Gate!"

Feudal days had moats with drawbridges. Then came walled cities, then houses with brick and stone walls. Our colonists built stockades; after the Indians had gone, board fences, then the picket and almost invisible wire or a bed of geraniums—now none! "Johnny, don't go out the gate," mother used to say. Now Johnny plays on the street. Whether he did better among the lilacs and the old fashioned sweet williams protected by the hedge or out in the street dodging automobiles and flipping cigarette pictures is a question. It's an age of transition. Following the trend of things, we are tearing down many fences. They're so old fogyish! There was a time when folks got married and they said, "For better, for worse, till death us do part." That was the understanding, and they meant it. If they had a tiff they made it up long before communion Sunday at the old church. But the marriage fence seems tottering. Only one in eight stands! Reno has a permanent settlement, and our wives get circulars mailed from there at the breakfast table. They are busy tearing down the old Sabbath fence our forefathers thought was so necessary for the safety of the republic Even the theological professors are feverishly removing the barriers about the Bible. Stars! We can remember when mother used to read those wonderful Bible stories to us We thought they were true, but it seems not. Of course fences are antiquated and outlandish. That verse about "Remove not the ancient landmarks which thy fathers set" must be all folderol

Hedges Are Law.

Sin says, "Don't bother about the hedges." When you read tomorrow morning's paper you will scan the story of the suicides, murders, home wrecks, sensational trials. The whole surface of the social sea seems strewn with this human flotsam. Who are they? They are the hedge breakers, and the serpent has bitten them. They have broken some law. Law makes the earth revolve. Light follows darkness. Spring, summer, autumn and winter follow in endless procession with their flowers, harvests, fruits and snows. It is law that lets birds fly, fish swim, cattle to roam in the field. If a fish leaps on the shore it has broken a hedge; if a beast remains under water it has broken a hedge; if a plant should refuse water it will have broken a hedge. The serpent of penalty will bite them The penalty and broken law go together like fire and heat. We are hedged in with law—natural law, civil law, social law, commercial law, common law, moral law, ecclesiastical law, international law. Law is the throne on which the Almighty sits. You can't break one of these laws with impunity. That story back in Eden doesn't have to be true. There are hundreds of cases before the public eye today where men and women have closed the gates of paradise on themselves. God help us! The brambles of the hedge have scratched us more than once.

The Sting of the Serpent.

Better keep hands off the hedge. Before sundown of your little day you will feel a festering wound. It means restraint—in the family, parental authority; in the social circle, conventionality and Mrs Grundy; in the church, still more stringent limitations. How you envy the bohemians! Will it never cease? Never, from cradle to grave. Children hardly move without "don'ts." You will outgrow those "don'ts" only to encounter others. Seems tyrannical? You can reach through and get the coveted thing—others have—but you get it only as the mouse gets the bait in the trap. Fame comes slow. You can become notorious in an hour. Want money without earning it? You can, but theft and embezzlement are on the other side of the hedge. Want to gratify passion? First visit the municipal hospital. Want your social glass? Better not. Red light ahead! Hedges are really rails put along the sides of life's footbridge. They limit your liberty, true, but they limit your danger. The night may be dark, the sky starless—those rails are your safety. They shut you out, but they also shut you in. Would you let your child walk the footbridge without them? Neither would God.

MERCURY WAS A LITTLE HIGHER SATURDAY MORNING

Last night was not as cold as the night before by about 7 or 8 degrees. The thermometer at the Fourth street plant of the Coshocton Light & Heating Co. registered 17 above zero at 6 o'clock Saturday morning, as compared with 12 above Friday morning. At midnight last night it registered 11 above.

Tome Page's thermometer down at South Lawn cemetery registered 10 above Saturday morning, as compared with 2 above Friday morning.

STOMACH TROUBLES

Cured by Vinol—Here is Proof:

Seymour, Ind., "I was troubled with a chronic stomach trouble and five weeks ago it got so bad I had to give up work. I had tried various medicines without relief—and was finally induced to try Vinol. After taking the first bottle I was greatly benefited. Am now on the third bottle and ready to resume work. Am rapidly gaining in weight and strength," Edw. Nieman. (We guarantee this testimonial to be genuine.)

It is the curative medicinal elements of the cods' livers, combined with the strengthening properties of tonic iron contained in Vinol which makes it so successful in restoring perfect digestion and at the same time it builds up the tired, overworked and run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. C. E Anderson, 404 Main St., Coshocton, Ohio.

Dr. Smith came out of the men's waiting room to board No 10 when it pulled into the station and as he stepped on the snow covered pavement his feet flew from under him and he fell on the hard bricks His face struck full against the bricks A pair of glasses he wore were not broken Two slight gashes were cut one on the bridge of his nose and the other under the right eye. Dr. Smith was dazed from the fall and was carried into the waiting room. He was later given medical attention.

Tonsiline Cures Sore Throat

The throat is one of the most delicate parts of the body. It is also one of the most important, and should be given the best possible care.

The throat is the gateway to the body. The air we breathe, the food we eat, the liquids we drink, all pass through it. It is very easily affected by cold, strain, exposure, etc., and Sore Throat is therefore one of our most common ailments. Strangely enough, it is also one of the most neglected.

Sore Throat is a very serious matter, for the whole system is in danger in consequence of it.

Every Sore Throat patient is a candidate for Tonsilitis, Quinsy, Diphtheria and other serious or fatal diseases, all of which can be prevented by the timely cure of the Sore Throat by the use of TONSILINE.

If taken in time a dose or two will do it.

TONSILINE is made to cure throat diseases and nothing else. It is the one remedy for this purpose sold largely in the United States. Every user endorses it; every physician, knowing its virtues, commends it.

The one most important thing to remember about TONSILINE is the fact that it really does cure Sore Throat.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds *himself* regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

NEWSPAPERARCHIVE®

—THE— GRANGE

(By H. A. CATON.)

Retrospect of 1910.

Taken all in all 1910 has been a prosperous year for the grange in Coshocton county. Within the year two new granges, Walhonding and Bethlehem, have been organized both good, live, progressive organizations and factors for good in their communities. The membership has increased about two hundred, a very satisfactory gain. The grange in this county is respected more than ever because the people realize that it is not a fad or an ism but an organization with a fixed purpose, working along definite lines for the betterment of the agricultural classes.

Never before has the grange made its power felt as it has during the past year—it is just now getting into condition to make its power felt. Let us make every effort to make 1911 even a better grange year than 1910.

New Deputy Master.

On account of his variety of work as teacher and farmer Deputy Master H. A. Caton will not accept the appointment for 1911-1912. This office should be held by some one who is more or less free to go at any time than the ordinary farmer, and for this reason Mr. Caton has asked the State Master to not consider him a candidate for re-appointment.

The National Grange Paper.

At the recent meeting of the National grange at Atlantic City the committee on the National Grange Organ reported that the National grange organ should be discontinued with the last issue of December and that the National grange should establish "The National Grange Bulletin" to be owned, controlled and published by the National grange under direction of a board of management consisting of the National Lecturer, National Overseer and chairman of the executive committee.

This paper is to be exclusively a grange publication solely for extending the policies of the order, and will not enter into field of agriculture or news publications and it will especially promote the educational phases of the order.

Grang Notes.

Sunday Dec. 4 was a birthday. 43 years ago a noted child was born.

And it isn't showing any gray hairs yet either.

It is just as active—yes more active today than ever.

That child was the Grange. The Grange has been a fighter too.

For 43 years it has fought the farmers' battles.

And comes up fresh and smiling for the 44th round.

Many a man is a "down and outer" before he has passed his forty-third milestone.

That's because he worked on wrong principles, or lacked stick-to-it-iveness.

The grange has "made good" because its principles are right and it has stuck to them.

The editor of this department enters a new field of grange journalism Dec. 22 when he becomes an associate editor of The National Stockman and Farmer, succeeding S. E. Strode as editor of the grange department of that paper.

Suggested Topics.

1. In the average modern-sized farm today, what is the weakest point in its management?
2. Is the human race actually more civilized today than it was one hundred years ago?
3. Resolved, That no man of average brains and health need ever die a public charge.
5. Is the jury system of America holding its own in the dispensing of justice?
5. In what per cent. of the average homes of today does absolute unity prevail among the members?
6. Is a partnership arrangement of two men likely to be a success on a farm?
7. What is the relation between good morals and good health?
8. How may a new Grange be most effectively helped by its State Grange during the first year of its life?
9. What has been the most interesting discovery in medicine during the last five years?
10. Winter light, air and exercise for milch cows—how far are these indispensable to making clean healthy milk?

The Christmas Dinner.

In spite of the fact that the word dyspepsia means literally Bad cook, it will be fair for man to lay the blame on the cook if they begin the Christmas Dinner with little appetite and end it with distress or nausea. It may not be fair for any to do that—let us hope so for the sake of the book! The disease dyspepsia indicates a bad stomach, that is a weak stomach, rather than a bad cook, and for a weak stomach there is nothing else equal to Hood's Sarsaparilla. It gives the stomach vigor and tone, cures dyspepsia, creates appetite, and makes eating the pleasure it should be.

A GOOD COMPLEXION ADDS CHARM TO ANY WOMAN.

Seaver's Laxative Tonic Tablets Will Produce Good Complexions.

Among the many charms for which women are especially noted, not one of them is so quickly recognized and admired as a good complexion.

Every woman, regardless of the station she may occupy in society, owes it to herself as well as her associates, to properly safeguard the beauties with which nature has endowed her.

The inactivity of the liver and bowels is the direct cause of pimples, sallowness, muddy skin and the many other blemishes common to a poor complexion.

Seaver's Laxative Tonic Tablets are largely composed of dandelion, and any physician will tell you there is nothing better to create a healthy condition of the skin and complexion. A 25 cent package of these tablets contains enough of the remedy for a fair trial and your money will be cheerfully returned by C. E. Anderson's drug store if you are not greatly benefited by their use.

Do not delay but give Seaver's Laxative Tonic Tablets a fair trial and you will agree that all our claims are absolutely true.

NEW DISCOVERY

Has Put the Good Old Dirty Mustard Plaster Out of Business.

A box of Begy's Mustarine will banish as many aches and pains as forty mustard plasters.

And only 25 cents for a yellow box full that C. E Anderson guarantees to cure headache, earache, toothache neuralgia, and pain in chest or back or money back

Just rub on Begy's Mustarine; it's better than a mustard plaster, kills all pain and does it faster. It isn't sticky or greasy and wont soil your garments.

It drives soreness from throat and chest; stops irritating coughs, reduces swollen joints, and takes out stiffness and lameness.

It's the best all around remedy for all the troublesome aches and pains that are common in every home. It's better than any liniment. Keep a box on hand.

A MISTAKEN IDEA

Among the large number of persons is that glasses are only required for old age. Nearly one half of the children in schools have defects of the eyes, and no child should ever be permitted to enter school until the eyes were examined. Before the eyes are fully developed (from 4 to 9) properly fitting glasses will relieve the eye strain and allow the eyes to grow and develop perfectly, just as a plant will grow if properly cultivated. Eyes can never be restored when once injured. You should never allow traveling spec peddlers, or persons without years of experience, together with a complete outfit of scientific instruments, to look at the eyes. Burns the optometrist, has had over 30 years experience, has all the best instruments used in eye work, and gives his entire time to the study of each individual case. All examinations free.

Kill the Dandruff Germs—Stop Hair Falling

Thousands of mothers are looking younger.—Their gray hairs are gone. The natural color has come back, and with it a new growth of soft, glossy, luxuriant hair. Why should you look old before your time, when you can look years younger by using

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Dandruff Cured

Three applications removed all the dandruff and left my scalp clean, white and smooth.
Wm. Croak, Rochester, N. Y.

It Is Positively Guaranteed to Restore Faded and Gray Hair to Natural Color

If other "so-called" Restorers have failed, don't give up hope, but give WYETH'S SAGE AND SULPHUR HAIR REMEDY a trial. You run no risk. If it is not exactly as represented, your money will be refunded.

PROFIT BY OTHERS' EXPERIENCE

Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

MISS E. A. ROSS,
Sharon, Mercer Co., Pa.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

OHIO AND NEW JERSEY

The campaign for United States senator in the great states of Ohio and New Jersey are interesting for comparison—they are so different The people of Ohio gave Judson Harmon a wonderful and magnificent vote of confidence but during the campaign The Age declared he was a politician trying to reach the presidency, and nothing more, and we have not yet had cause to change our opinion. The people of New Jersey elected Woodrow Wilson governor by just as wonderful an attest to his personality. He came out this week and flatly declared that if the legislature elected James Smith, Jr. as U. S. senator, that he would not go to Washington as the representative of the people of New Jersey Moreover he flatly declared that James E. Martin should be elected U. S. senator. In order that there might be no misunderstanding, Gov Wilson made the statement in writing, over his own signature. It may not have been good politics, but it certainly smacks of good government and good sense. A similar squabble is going on in Ohio. In place of the name Smith write Hanley and Pomerene instead of Martin and the conditions are analogous. But what is Ohio's governor doing? Nothing, except going to Kentucky to a sort of horse show of governors where he was put through fancy steps and paces; and then on to Washington to a similar parlor party, where he would have a chance to meet the Democratic politicians of the nation. In the meantime the old Cincinnati-Dayton gang of which Mr Harmon has always been a silent partner, has been playing ball. Hanley has control of the important senate committees, body and soul. No one can wink without his permission Pomerene so far as committees are concerned, got what Paddy shot at, and is now going to go over the state and make his campaign to the people, disregarding the legislature. It has been presumed by some that Harmon wants Pomerene to be senator, but with his customary political finesse, intends keeping hands off . From a Republican standpoint, politics only considered, Mr. Harmon should remain in the show-class. and let Hanley go to the senate and the old ring boss affairs at Columbus. Let them keep that up through the year and Ohio Democrats wont to be able to elect a pound master in the most obscure township. The main difference between Harmon and Wilson, both of whom are talked of as Democratic presidential timber, appears, so far, to be that one is in politics for himself and the other for the people

ALL TRAINS LATE FROM HEAVY SNOW

The heavy snow fall both east and west of Coshocton is playing havoc with the Pennsylvania passenger and freight schedule. A few days ago west bound trains began arriving a few minutes late but Saturday both east and west bound trains were late all day long Train No 7 pulled into the Coshocton station about 2 1-2 hrs. behind their schedule and No. 18 was 1 1-2 hours late. Even the local trains running between Columbus and Denison were several minutes behind time No 7 plowed through over a foot of snow in coming west over the mountains in the east.

Judge R. M. Voorhees responded to the toast, "Reminiscences of the Law." He said, "I feel that I ought to be one of you in the celebration in honor of Judges Donahue and Taggart, I have practiced law for fifty years and in that time there has been a perfect revolution in the practice of the law." He spoke of his acquaintance with a number of eminent lawyers of this district among whom were such distinguished lawyers and statesmen as Hon Edwin Stanton and Hon. Jno. A Bingham. A RASH BECOMES MASS OF HUMOR

On Baby's Face, Head and Shoulders—Parents Decided He Could Not be Cured—Cuticura Made His Skin Perfectly Clear.

"Our boy was born in Toronto on Oct 13, 1908, and when three months old a slight rash appeared on his cheek What appeared to be a water blister would form When it broke, matter would run out, starting new blisters until his entire face, head and shoulders were a mass of sores and you could not see a particle of clear skin Other parts of his body were affected, but not to such an extent As we did not know what to do for him and tried about every advertised remedy without avail, indeed some of them only added to his suffering and one in particular the — Remedy almost put the infant into convulsions. The family doctor prescribed for him and told us to bathe the baby in buttermilk. This did not do any good, so we took him to a hospital He was treated as an out-patient twice a week and he got worse if anything We then called in another doctor and inside of a week the boy was, to all appearances, cured and the doctor said his work was done But the very next day it broke out as bad as ever

"We decided that it could not be cured and must run its course and so we just kept his arms bandaged to his side to prevent his tearing his flesh. We left Toronto and shortly after our arrival in Duluth the Cuticura Remedies were recommended We started using them in May, 1909, and soon the cure was complete You would not think he was the same child for Cuticura made his skin perfectly clear and he is entirely free from the skin disease There has been no return this time We still use only Cuticura Soap for baby's bath Robert Mann, Proctor, Minn., May 3, 1910"

MARSHAL SAYS BEER SHIPMENTS ARE VERY HEAVY

"The wet and dry question keeps us busy most of our time," remarked U. S. Marshal McAllister to an Age reporter when he was in Coshocton Saturday. "U. S. license laws are very strict—much more so in fact than state statutes. I was surprised the other evening while traveling on a passenger train from Columbus to Marietta. When the train stopped at Nelsonville, more than 100 cases of beer were dumped off That's what causes us so much work."

THE THEATRE

"The Red Mill."

William Moore, one of the stars of "The Red Mill" which comes to the Sixth St theatre Tuesday, Dec. 13, went home one Sunday, to visit his parents.

"Where are my hunting trousers?" he overheard his father ask. I want to go shooting tomorrow."

"An Italian musician is wearing them," replied his truthful son.

Then he explained that the old corduroy trousers were so good for the organ grinder act in "The Red Mill" that he had pre-empted them on a previous visit to the paternal homestead, but would glady replace them with a brand new pair

"I never could buy such a pair as yours, father, because they are not made nowadays," said William

EX-CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

OTHER REMARKABLE CASES.

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peruna I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peruna has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peruna. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peruna advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

Ever since the people of Coshocton were privileged to enjoy the musical treat afforded them by the artistic song recital given by Mr. Frank Croxton the celebrated basso from New York, most favorable comment has been heard on every hand as to the beautiful tone of the piano used in the recital The tone blended perfectly with the great singer's voice and filled the whole auditorium with melody. It was one of the new vertical Grand Compton-Price pianos, and its wonderfully sweet and resonant tone was a revelation to those present. The instrument is finished in mahogany in a case of chaste Colonial design beautiful in its simplicity

THE TRUE TEST.

Tried in Coshocton, It Has Stood the Test

The hardest test is the test of time, and Doan's Kidney Pills have stood it well in Coshocton. Kidney sufferers can hardly ask for stronger proof than the following

Mrs. R. F. Sayer, 549 Walnut-st, Coshocton, Ohio, says. "I am glad to say that Doan's Kidney Pills did me more good than any other remedy I ever took. I was rarely free from backache and my kidneys were badly disordered. Seeing Doan's Kidney Pills advertised in the local papers. I decided to try them and procured a box at Siegrist & Williams' Drug Store. They helped me at once and I continued taking them until my trouble disappeared. I am grateful to this remedy for restoring my health."

Mrs. Sayer gave the above account of her experience with Doan's Kidney Pills in August 1906, and when interviewed on May 9th. 1909. she said: "Although nearly three years have passed since I was cured by Doan's Kidney Pills, I have had no return of kidney complaint. There are always a lot of rain-day chores about the farm.

Instead of spoiling a day in going to town, the farmer goes to his Bell Telephone and does his business. The time saved can be spent profitably.

That is why he would not think of being without the Bell Telephone Service. It is poor economy to try to get along without it. Consult our local manager.

QUAD GAS HEATERS

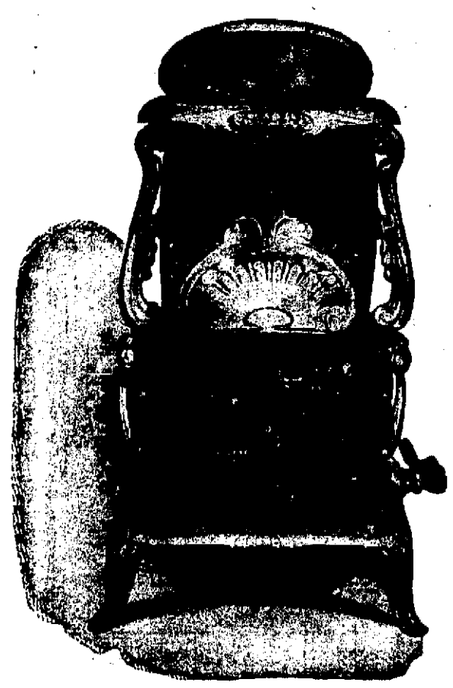

Need No Introduction in Coshocton

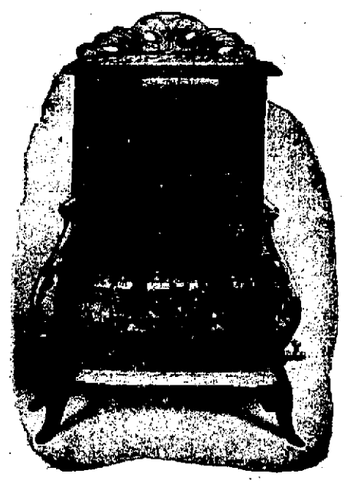

We Have Sold Hundreds of Them in the Past Seven Years and Each and Every Heater Has Given Entire Satisfaction.

We Guarantee Them in Every Respect

THREE STYLES FOUR SIZES

It needs but little study of the cut shown above to satisfy you that this heater contains three essential features to make a perfect GAS HEATER.

First—COMBUSTION. It has a system of goose neck burners with adjustable air mixers that mix the air and gas properly, and then the combustion takes place in a basket of the finest porous clay gas fuel, which becomes intensely hot. A current of fresh air is passed through the hot mass, and thus a large amount of oxygen of the air is consumed, producing a very hot fire, using the smallest possible per cent of gas.

Second—RADIATION. The entire outside body of the QUAD is active radiating surface, and as shown in the cut there are added a number of circulating tubes directly over the fire in the hottest part of the stove, thus adding a large amount of radiating surface in close contact with the fire. The heat is then obliged to pass across and around the tubes four times before reaching the flue; thus it will be seen that the air in the circulating chamber over the back of the fire chamber and in the tubes becomes very hot and then rises in a current of hot air in the room, at the same time drawing the cold air from the floor up under the stove into the heating chamber.

Third—PROPER VENT. In order to dispose of fumes and sweat that are in all natural gas, the products of combustion are passed across and around tubes FOUR, times thus retarding them until the heat is all absorbed, and they pass into the chimney just hot enough to prevent condensation in the pipes. No fumes nor sweat can get into the room and the air is kept pure, sweet and dry.

COSHOCTON WON FIRST BASEBALL GAME OF SEASON

In a closely contested, hard fought battle the Coshocton high school basket ball team defeated the Columbus team at Assembly Hall Friday night by a score of 17 to 14 The Coshocton players looked like midgets beside the big Coumbus team but fast team work was Coshocton's and they played rings around the visitors for the most part of the game.

In the first half Coshocton secured four goals and two foul goals while Columbus could shoot ony two baskets. In this half of the game Columbus showed very poor form. Their team work was bad and they played the game like youngsters with no practice. They seemed to know very little about the game. The big fellows were held down in heroic style by Coshocton's little players.

But in the second half Columbus seemed to wake up and take the bit in their teeth for they started in with determined playing and kept it up until the whistle blew ending the game. The visitors began shooting basket as soon as the half started and before ten minutes had been played they had tied the score Coshocton shot another basket boosting the score for them and when Mulligan shot a goal from foul in the latter part of the game Coshocton was easily conceded the winner:

The lineup and summary:

Columbus.		Coshocton

JUST PUBLISHED
Webster's NEW INTERNATIONAL Dictionary, (G. & C. Merriam Co., Springfield, Mass.) surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

Daylight Window Displays at Night

"Yes, it's wonderful the way window displays can be made under the pure white rays of this new General Electric Mazda Lamp. Just notice how perfectly it accentuates every detail in fabrics. Matching goods under its white rays is easy, for it radiates a daylight effect. You will notice that progressive stores everywhere are using these G-E Mazda Lamps, for aside from their vastly superior quality of light they give nearly three times as much candle-power as the ordinary carbon incandescent lamps. And they cost no more to operate. This G-E Mazda is a most ingenious invention; it is simply revolutionizing lighting methods. Notice how greatly it improves the appearance of all the live stores along this street."

"Traffic is always determined by the way a street is lighted, and that's why the night window gazers (and next morning buyers) are irresistibly drawn to stores using these beaming G-E Mazda Lamps."

We want you to come in for a moment today and let us prove to your entire satisfaction that if you are not using electric light—and the wonderful G-E Mazda Lamp—you are losing money and denying yourself comfort and convenience. We can prove this to you.
